

Sprint 3 Burndown

- Sprint 2 burndown chart reflects the completion of 41 sprint points
- Start date: 12/07/2023
- End date: 21/07/2023
- Velocity in Sprint 1: 32/32
- Velocity in Sprint 2: 38/46
- Velocity in Sprint 3: 41/52
- Reflection: The burndown chart indicates the completion of most tickets towards the end of the sprint as affected by increased workload for the team due to other commitments. The change in velocity is also affected for the same reasons. We decided to take on more work in this sprint as we saw the team was comfortably completing the story points estimated in the last sprint.
