# Sprint 2 Burndown

- Sprint 2 burndown chart reflects the completion of 39 sprint points

- Start date: 26/06/2023

    - Started late as the team was busy with the CSCC01 Midterm

- End date: 07/07/2023

    - End date as mentioned on the handout

- Velocity in Sprint 1: 32/32

- Velocity in Sprint 2: 38/46

- Reflection: The burndown chart indicates the completion of most tickets towards the end of the sprint as affected by midterms and holidays during the start of the sprint. The change in velocity is also affected for the same reasons. We decided to take on more work in this sprint as we saw the team was comfortably completing the story points estimated in the last sprint.
